

MB Docket No. 04-233 I feel that the services of KLOVE radio station to my community are unique. It is the only alternative we have to listen to christian music in my area. It allows my family to listen to radio and news without being exposed to the vulgar language and poor morals that are prevelant through out radio today. It is the only channel I can have on in my car when my children are present, that I do not have to worry about what they might hear, or having to apologize or explain to them why people on the radio can talk that way, when they are not allowed to do so in their home. Thank you.
